A black and white photograph of a sleek, elongated electronic stylus. It features a series of small, rectangular buttons or sensors along its length and a fine, needle-like tip at one end. The device is oriented diagonally from the top left towards the bottom right.

**FIGURE 7**  
*Aoto text capture stylus*

A black and white photograph showing a hand holding a C-shaped electronic device. The device has a curved body with a small, dark rectangular area on its inner curve, likely a scanner or sensor. The hand is positioned to demonstrate the device's ergonomic design and how it would be used to interact with a document.
